8/8/2016 All,  
Thanks again for supporting the on-site assessment on July 28th. I was impressed with the overall organization & thoroughness of the documentation and capability at your facility! I am pleased to inform you that Level 3 Inspection is now RR approved, please see attached certificate. Feel free to share and/or display as you see fit. (Note: the certificate states "approved for CMM programming" vs "approved for 3D programming" because the RR approval is associated with an internal code and this was the only one available within our system currently.)

Congratulations!
